

the **INSIDE** scoop

ALIENS ABDUCT FUJIFILM DLTtape™!

Fujifilm makes next generation products possible. Even for interstellar travellers.

What could aliens possibly want with FUJIFILM DLTape™IV? It must be the revolutionary ATOMM Dual-Coating Technology inside.

When we invented ATOMM (Advanced super Thin-layer and high-Output Metal Media) we made possible revolutionary next generation products such as DLTape™IV, DDS 3, DDS 4, Zip™ and the 200MB floppy, HiFD™. Never before has our world seen such a dramatic increase in data storage capacities.

To get the inside scoop on FUJIFILM products, call us at 1-800-488-FUJI. See why our storage media is attracting universal attention.
